**What does your job involve?**

My activity at the company consists mainly in recording all the documents, and so reporting the monthly financial situations internally, and externally for the Mother Company (a Polish company). I also maintain the relationships with suppliers, with the bank and with the Romanian Authorities.

**What attracted you to accountancy and to ACCA in particular?**

I think that accountancy helps you understand the events which occur next to you, challenges your brain and demands that you keep pace with the multiple changes all around. For me, ACCA is proof that I have acquired a high level of knowledge and comprehension in the economic and financial domain, absolutely necessary to becoming a real professional.

**How did you hear about BPP?**

I found out about BPP reading through the internet, at the moment when the employer told me that he will help me to attend the ACCA courses.

**What study support have you had from your employer?**

I had all the support I needed and my employer understood very well the benefits of my taking the ACCA. As I was doing my job well and there wasn't any problem to me to be out of the office to the purpose of going to courses.
